

What is SIFTS?

SIFTS is an online tool designed to assist decision-making teams in matching a person's needs with AT features. SIFTS can be completed by parents, students, consumers, and professionals serving people with disabilities of all ages.

Why SIFTS?

- Matches a person's needs and strengths to AT (Assistive Technology) features
- Builds team knowledge of AT features
- Quick and easy online tool
- Easily usable by teams, parents, consumers, and others
- Complete one or several domains based on the person's need
- Provides embedded text, pictures, and video
- Tracks changes over time
- Stores results on a secure website
- Developed by a multi-disciplinary team of AT professionals
- Free
